

Our Marshall Lane Community is Ready to Return to School

An eBook to help students prepare for the next phase in our reopening.

Our whole community has been working together to do our best during distance learning. We are now getting ready to start returning to school for in person learning. That is awesome!

Our teachers and other caring adults at school might look different in their masks, but they are so excited to see you! You can also see your old classmates and friends as well as make new friends!

KELSEY DAVIS

It is okay to have strong feelings about going back to school in person. Maybe you feel excited or happy! Maybe we feel scared or nervous. Maybe you feel a bit curious about how returning to school will be. All of those feelings are okay!

You will need to eat a good breakfast at home every day before coming to school.. Your parents or caregivers will make sure that you are healthy before getting ready for school. We will all need to put on our masks before leaving our homes.

In your backpacks, you need to pack a full water bottle, a healthy snack, your fully charged Chromebook, your Chromebook charger, and any other books and instructional materials that you will need for your class. You will also need a baggie with 2 to 3 extra masks in case yours becomes wet or dirty.

You will say goodbye to your parent or caregiver in the car before getting out and walking to your classroom. Staff members will be there to assist you.

Make sure that you arrive at school at the right time and walk through the correct gate to go to your classroom. You will need to keep your masks on and stay 6 feet apart from others at all times when you are on campus. This is one way that we will all work together to keep everyone safe.

KELSEY DAVIS

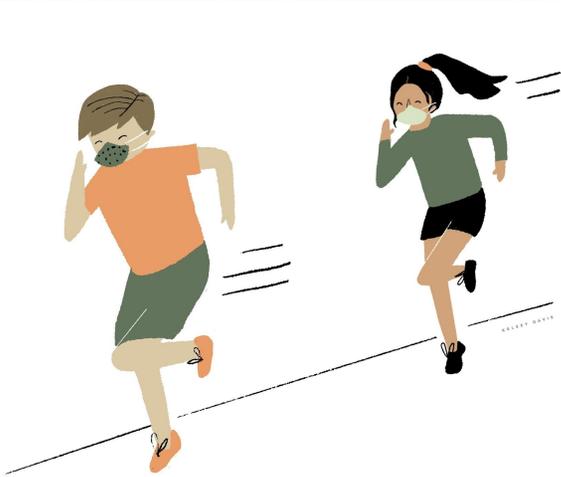

In your classroom, you will be doing most of your learning at your desks with your mask on. It may feel strange to sit apart from your friends, but everyone will need to be cooperative and sit this way so we don't share our germs.

When using the bathroom or walking in the hallway, you will need to stay six feet apart from other people. You will walk with your class and can wave from a distance to friends from other classes. Only two students will be allowed in the bathroom at one time, so you will need to wait on one of the big green Xs until it is your turn.

Snacks will be eaten in your classroom or outside depending on what your teacher plans for you. It's okay to take your mask off while you are sitting down eating and drinking. You will need to put your mask on before you begin to play.

You will be able to enjoy recess outdoors unless it is raining so you can get some exercise to keep your bodies healthy and enjoy the fresh air. Each class will have a special place to play. You will play with other students in your class while staying 6 feet apart. Play areas will rotate every week, so you will have a chance to play in all of the areas, just not on the same day.

You will go home to have lunch. Healthy bag lunches will be available as you leave the campus to take home and eat.

You will exit out the same gate that we entered in the morning when you see your parent's or caregiver's car. Your parents will need to have a sign with your last name in big print in their car window so we can help you to find your car. We have missed you and can't wait to see you when you return!!
